AMENDMENT

In reply to the Office Action dated October 9, 2002, please amend the application
as follows:

IN THE SPECIFICATION:

Please amend the specification as follows:

Please replace the paragraph on page 9 lines 6-16 with the following:

The sample is charged in the following method. FIG 13 shows an example of the
relationship between the acceleration voltage of the electron beam and the emission
efficiency of secondary electrons. In this case, the sample is a resist, the abscissa
indicates the acceleration voltage, and the ordinate indicates the emission efficiency of
secondary electrons from the sample surface. The resist is positively charged with the
